Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage for ComicCraft.

Phase of Journey	Stage 1: Discovery & Story Concept (Ideation)	Stage 2: AI Panel Generation & Scripting (Creation)	Stage 3: Publishing, Exporting & Sharing (Finalization)
Actions What does the customer do?	- Explores ComicCraft platform & features - Defines story genre, premise & prompt - Establishes main characters & visual style	- Generates AI script & panel layout via Gemini - Customizes character poses & speech bubbles - Adjusts camera angles, lighting & panel frames	- Previews complete comic book storyboard - Exports final comic in PDF, CBZ or PNG grid - Shares story to social media & community gallery
Touchpoint What part of the service do they interact with?	- Landing Page & Onboarding Wizard - Concept Ideation Studio - Genre & Art Style Cards - Gemini Prompt Assistant	- Interactive Drag-and-Drop Canvas - Gemini Scripting & Dialogue Editor - AI Panel Rendering Engine - Bubble & Asset Toolbar	- Export & Resolution Settings Dialog - Interactive Digital Reader Preview - Social Share & Showcase Gallery
Customer Thought What is the customer thinking?	"Can AI turn my rough idea into a compelling comic story?" "How easy is it to maintain consistent character looks?"	"The Gemini script dialogue sounds very natural!" "I need to fine-tune panel 3 to make the fight scene dynamic."	"This looks like a professionally published comic book!" "I'm excited to share my AI creation with my friends."
Customer Feeling What is the customer feeling?	Excited, curious, slightly skeptical about AI visual fidelity.	Engaged, creative, empowered, impressed by instant rendering.	Accomplished, satisfied, proud, eager to write the next issue.
Process Ownership Who is in the lead on this?	Marketing Team & UX/UI Product Designers (Ideation UX)	Core AI Engineering & Prompt Engineering Team (Gemini Integration)	DevOps & Full-Stack Product Engineering Team (Export Pipeline)
Opportunities How can we improve this stage?	- Provide pre-built story starter templates - Add voice-to-prompt ideation powered by Gemini Audio	- Implement seed-based visual character locking - Enable real-time co-authoring for team creators	- Offer print-on-demand physical comic printing - Integrate community remixing & digital collectibles
