

Project Demo Planning

Date	15 March 2026
Team ID	SWTID-2026-5650
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Welcome, team introduction (SWTID-2026-5650), overview of comic creation challenges & ComicCraft mission.	2 mins	Team Leader
2	System Architecture & Gemini Integration	Explanation of Gemini 1.5 model integration, prompt pipeline, and UI/backend tech stack.	3 mins	ML / Backend Lead
3	AI Script & Character Generation Demo	Live creation of a superhero comic script and character prompt engineering.	4 mins	AI Engineer
4	Comic Layout & Visual Panel Rendering	Rendering panels into grid layouts, balloon dialogue placement, and style customization.	4 mins	Frontend Lead
5	Audio Voiceover & Export Demonstration	Demonstrating TTS speech playback and exporting final comic to high-res PDF format.	3 mins	Full Stack Dev
6	Scalability, Future Roadmap & Q&A; Preparation	Highlighting system scalability, future feature pipeline, and concluding transition to Q&A.;	2 mins	Team Leader

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Setting project context, target audience, and key problem solved by ComicCraft.
2	Solution Overview	Highlighting architecture, Gemini API usage, character consistency & layout engine.
3	Live Feature Demonstration	End-to-end live creation from prompt input to final PDF comic export.
4	Q&A; Session	Addressing evaluator questions regarding API latency, cost optimization, and model fine-tuning.
